Builds web applications and internal tools with attention to reliability and usability.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL
Frameworks: React, Next.js, Node.js, Express
Data and testing: PostgreSQL, Redis, Jest

WORK EXPERIENCE

Northstar Systems (fictional) | Software Developer | Jan 2022 - Mar 2025

- Built a React/TypeScript onboarding UI for the internal operations team.
- In an internal test of 40 users, median completion time fell from 12 to 8 minutes.
- Implemented a Node.js/PostgreSQL API used by 6 internal teams.

Cedarline Lab (fictional) | Junior Software Developer | Jul 2020 - Dec 2021

- Maintained an Express API and added Jest tests for account workflows.

PROJECTS

Queueboard | Personal project | Apr - Jun 2024

- Built a task board with Next.js and Redis; load tested at 500 concurrent sessions.

Release Notes Helper | Team project | 2021

- Created a TypeScript script that grouped pull request titles for weekly review.

EDUCATION

BSc Computer Science | Fictional Polytechnic | 2016 - 2020

LANGUAGES

English - professional working proficiency (self-reported)
